How to use the tools of Community Psychology (e.g., Participatory Research) to support and stimulate climate engagement?

Definition, research projects and case examples of successful mobilization

Nicholas Carr, convenor EFPA SC on Community Psychology and
Minou Mebane EFPA WG CP Project on climate change

Community Psychology for our future world

Bernd Roehrle SC Community Psychology

11/25 UN day to fight violence against women and climate change. The respect of the earth as a non-predatory feminine value

Marina Passos

11.30-13.30 Workshop

The New Bank of Community Ideas and Solutions

In Quest of a Common Global Currency of Tomorrow

In this 2-hour workshop, we will analyze and present patterns of success built into the moments and sense of community, in order to make them transferable to other situations and areas. Interactively, we will discuss conditions needed to create and tell transformative community stories, and share our own stories.

Wolfgang Stark (Germany), with Bill Berkowitz, Leslie Hatch Gail, Brad Olson, Jordan Russell, MoDena Stinette, Tom Wolff (USA), Liesette Brunson (Canada), Caterina Arcidiacono (Italy), Nicholas Carr (Norway)

The '[New Bank for Community Ideas and Solutions](#)' offers concrete examples how we build community and collaborate creatively as a community. It recognizes and appreciates inspiring stories of community resilience and creativity as shared 'societal treasures' and as an important part of our 'common social wealth'.
